"Our History Matters" with Jeanette Alessio-Way

Jeanette gives in depth information on everything that she brings. She researches all her material, people, date, and place with the history and beyond on each piece of memorabilia she brings in...some information you never knew existed in our history.

Jeanette is truly a walking talking library of knowledge with a wonderful out going personality to deliver a professional and quality program. I could see her program as a possible educational TV series.

I would highly recommend Jeanette's many programs to groups of ALL ages.

Thank you Jeanette for making a difference in so many lives.

Sincerely,

A handwritten signature in black ink that reads "Kitty Wallies". The signature is fluid and cursive.
